# Meet our Academic Team

# Head Administrator

TLC stands for Trinity Learning Centre but our work spells out Teaching Learning Collaboratively. Our mission for the learners of TLC is to Humanise Our World Through Education.

TLC believes that children are natural learners and we want them to make meaningful connections with the content they have and the knowledge that they receive, making every learning outcome purposeful.

TLC is a community centre with a heart for people and a heart for children.

**Madam  
Deborah Gordon**

# Programme Director

*The heart of learning is found within the collaboration of Teachers and Learners.*

Giving them the independance to discover on their own gives them the awareness of personal achivements. When learners recognise their strengths, they recognise their abilities and this continually motivates them.

TLC provides the foundation for their autonomy in learning, close support and constant encouragement.

# Collaboration Classes "CCP"

# What is CCP?

CCP helps children to learn the skills of effective communication in group dynamics and presentation

The programme is a blended learning technique combining learners of varied ages and subjects

It is a unique learning approach founded in TLC and successfully executed since 2017. In this class, children are brought out from their traditional classrooms and into a large learning space.

The big idea is to stimulate scenarios where children need to navigate through their circumstances (differing ages, opinions and multi-levelled intelligence) to arrive at a common goal.
